

Solutions Guide

Managed Services

Managed Services

We have years of experience in running successful managed services contracts for our clients.

During this time, we have invested significant time and resources into creating software tools to optimise services and provide extensive service management reporting capabilities.

Plus, a managed service contract with The Cabling Company will save you money...

[We offer three managed services models:](#)

- task-based managed services
- Resource based managed service
- If applicable- a blend of both task and resource based managed services

By utilising our proven managed service transition process- that may also involve Transfer of Undertakings (Protection of Employment) regulations (TUPE) - we combine our expertise, proactive approach and proven tools.

Managed Services

Quality

Our qualifications and experience are supported and reinforced by ISO 9001:2015.

This is a standard that sets our requirements for a quality management system, helping businesses and organisations to be more efficient and improve customer satisfaction.

The Cabling Company managed service gives you access to this wealth of expertise for your infrastructure that will significantly increase your uptime and give you total peace of mind.

With a managed services contract we are always here for you no matter how big or small your query...

Could our managed solutions be right for your business? Contact us on 0302 947 146

Looking for a trusted partner?

Where we come in...

If you need ongoing technical support without getting too involved in the detail, our managed services could be ideal for you.
